

Mice in the UK!

wildlife
watch

Harvest mouse

House mouse

St Kilda mouse

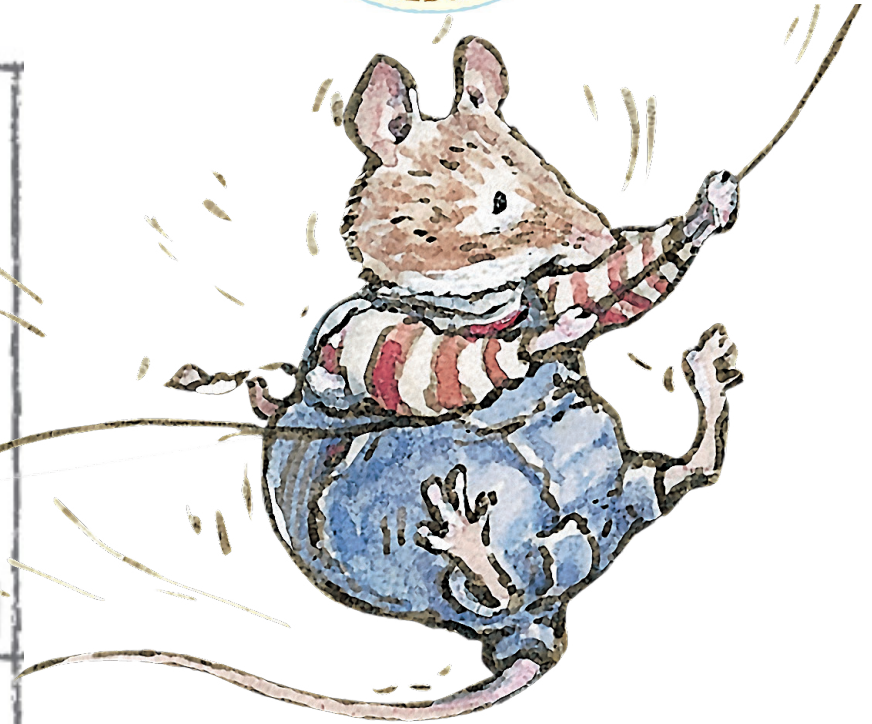

Wood mouse

Yellow-necked mouse

Mouse in a hat??

Did you know there were so many different mice to be found? Wilfred is wood mouse and he loves playing games and having fun!

You might be surprised to see that the dormouse isn't included here - did you know it's not actually a species of mouse? They are rodents but aren't in the mouse family. Amazing!
